## PREFACE.

---

The Antiquarian Book-shop, which is the true preserver, and oftentimes the tomb, of the books embodying the knowledge and wisdom, the errors and follies of past generations, is also a source of great delight and a treasure of information for the lover of books, the historian, the scholar, the librarian or the student. With the daily increasing acquaintance of the people of this free and young country with the learning and culture of old and monarchical Europe, the importance of the Antiquarian Bookstore and the benefits of the same are becoming more and more appreciated and recognized, and with the growth of wealth and leisure, a more systematic study of the arts and sciences is permitted.

The time is not far distant when an intelligent and discriminating public will demand of the bookseller, and especially of the dealer in old books, a thorough training and a wide knowledge of his trade, combined with a sound judgment on all matters pertaining to books and literature. Only men who have these qualifications and who possess the requisite fund of energy for one of the most ideal of the professions, the art of bookselling, will in coming days gain the patronage of book buyers and meet with success, *not* the underseller, bookbutcher, dry goods bazaar, etc., which to-day are the ruin of the honest bookseller. Every tradesman should have honest prices, and not intend to upbuild his own fortune on the ruins of his legitimate competitors. The best method of combatting these guerrillas is to let them severely alone, for by so doing they will naturally exterminate one another. This does not preclude, of course, the necessity of meeting the fluctuations of the market, provided one can do so without actual loss. A bookseller should also be willing to stand the loss of a sale, if circumstances advise this. Above all every bookseller should take pride in carrying as large and well selected a stock as his means allow, suitable for his locality, and endeavor to be better versed on questions pertaining to books and their contents than his colleagues. An essential factor in the successful conduct of the bookseller's business, is a full and complete Library of Bibliographical and Literary Reference Works, Trade-Catalogues, Publishers' Lists, etc. This will be more appreciated by book-buyers, than any unnecessary cutting of prices on popular books.

The want of a "Directory of the Antiquarian Booksellers and Dealers in Second-hand Books in the U. S." has long been felt by Booksellers, Librarians and

The following works are valuable for this purpose: any Standard Encyclo-pædia; Allibone's Dictionary of English Authors; Phillips' The Great Bibliographical Reference Index; Adams' Dictionary of English Literature, and the Library Catalogues, as mentioned below.

If merely the *title* is known, the following works and Library Catalogues will be found in this, as in many other respects, very serviceable:

Adams, Dictionary of English Literature.

Wheeler, Who wrote it?

Brewer's Readers' Hand Book.

Brewer's Dictionary of Phrase and Fable.

The American Catalogue and Supplements.

Leypoldt's Digest of American Publications, contained in the Trade List Annual for 1875.

Low's Indexes to the English Catalogue.

Whitaker, Reference Catalogues.

The monthly and weekly Records of the "Publisher's Weekly" and those of the London "Bookseller" and "Publisher's Circular."

The Library Catalogue of the Boston Athenæum.

The Class-lists of the Boston Public Library.

Mr. Noyce's admirable Catalogue of the Brooklyn Library.

The Catalogue of the Library Company of Philadelphia.

Mr. Schwartz's Catalogue of the Apprentices' Library of New York.

Mr. Spofford's Index Catalogue to the Library of Congress and the subsequent volumes of the new Catalogue of this National Library.

Mr. Linderfelt's new Catalogue of the Public Library of Milwaukee.

See also the catalogues of large dealers, arranged according to titles. Very often books can be traced by glancing over the Subject Entries of the American Catalogue, Low's Indexes, or the larger Library Catalogues.

If only the *place of publication* is known and nothing definitely in regard to author and title, address some dealer as named in this Directory, or other book-sellers, residing in that place or state. The same may be done, if the author and title are known, but the publisher cannot be found, or the book is not obtainable through the ordinary channels of the trade.

For books issued by the U. S. Government, address the "Public Printer" Washington, D. C. If such books are ordered before printing, this officer is obliged by law to furnish copies of any books issued by the different State-Departments to citizens of the U. S., at the cost of production. But the Government publications may frequently be had for a short time *after* publication, at the same prices, from

the "Public Printer" or the respective department. A list of dealers in such books, is to be found in this Directory.

For the publications of the various States, address the "Superintendent of Public Property" or Secretary of State at the different State capitals.

Books published for private distribution are generally not catalogued in Trade Catalogues, but are sometimes found in the Library Catalogues; they are often procurable from the local booksellers where they have appeared.

In obtaining books in some smaller towns or Western cities, write also, if such an address is known to you, to the local bookseller, otherwise to the editor or publisher of a newspaper, some law firm or the postmaster of such a place.

For books, known to be "out of print," and costly works, wished to be obtained second-hand at a reduced price, make inquiries at the dealers in Antiquarian and Second-hand books, as per Directory, or advertise for American books in the "Publishers Weekly," "The Bookmart," or the "American Bookseller," and for British publications, in the London "Bookseller" or the "Publisher's Circular." Always state the full title, imprint, etc., of the book wanted, as near as possible. Every bookseller should consider it his duty to read the advertisement column of "Books Wanted" in the above Trade Journals and to offer such books to the advertisers as he may have on hand, not charging an exorbitant price for them. The advertiser frequently does not want such books bad enough to pay a high, or even a moderately high, price for them.

Sometimes copies of books, which are reported "out of print" with the publisher, are often obtainable from some jobber or larger retailer in some other city, whose stock is not yet exhausted, and it was partly for this reason, that a list of jobbers in new books was included in this Directory.

Publishers, especially in England, in many instances, do not give the date or the edition of their books and this can then only be found by referring to the "Annual Records" of the Publisher's Weekly or "Low's Annual English Catalogues." The American Catalogue, Kelly's and Roorbach's Catalogue and Low's English Catalogue, do also, in many cases, report the date and the edition.

The sizes of books as applied by American Publishers and as adopted by the American Library Association, are somewhat larger than those for which the same terms are used in England, Germany and France, so that the book which is called abroad a 12mo, becomes in this country a 16mo, an 8vo, a 12mo, a small 4to an 8vo, etc.

The sizes of books are designated in the U. S. viz: — Folio, more than 12 inches high; 4to., 10—12 inches; 8vo., 8—10 inches; 12mo., 7—8 inches; 16mo., 6—7 inches; 24mo., 5—6 inches; 32mo., 4—5 inches; 48mo., 3—4 inches.

The prices of books are in many instances changed by the publisher some-

time after their publication, or when a new edition appears, and it is advisable to refer to the publisher's latest list, before ordering.

Very recent or forthcoming books, not yet recorded in the catalogues or trade journals, should be looked up in the latest announcements of the publishers, generally to be found in the Trade Journals, particularly in Special Announcement numbers, or on special lists and circulars, issued by these publishers. All Catalogues and Trade-lists of importance, received by booksellers daily, should be preserved and filed for reference. The best apparatus for filing Catalogues, Circulars, Quotation of prices, etc., are E. W. Woodruff's Patent Cases (Washington, D.C.) These are indeed very practical and time-saving, especially if around the Lists and Circulars of each publisher, is put a manila paper cover of the same size as the inside of the case and marked with the name of the respective publisher at the top of the front page of the cover. All these lists should be arranged in alphabetical order. This method does away with all annoyance in keeping Trade-lists and Circulars in sight, as one can find everything in a moment, or take out obsolete matter to be replaced with something new.

When titles of works *on a certain subject* are wanted, see the Subject Entries or Index volumes to the American Catalogue and R. Clarke & Co's, Cincinnati, Special Catalogues. For British works see Low's Indexes and Whitaker's Reference Catalogues and for old publications, the subject part of Watt's Bibliotheca Britannica. For German Works: Buechting's Repertorium, Hinrich's, Gracklauer's and Seydel's Special Catalogues, Wolf's Vademeums and Steiger & Co.'s Lists. For French works: see Lorenz's Index, Gerold's Special Catalogues and other classified Catalogues of large Retailers in French books.

Consult in regard to special bibliographies of subjects the "Bibliographical Aids" in the American Catalogue, Subject Entries to vol. 1; List of Bibliographies in the British Museum, Sabin's Books about Books, Petzholdt's Bibliotheca Bibliographica and Vallee's Bibliographie des Bibliographie.

As additional and time-saving helps to the Indexes of the American Catalogues of Low's Indexes and other works quoted, the following catalogues may be mentioned.

For *School- and Textbooks*: the Educational Catalogue, which is very full, exceedingly well arranged and issued annually by the "Publisher's Weekly." Special lists of Miscellaneous British School books, are published by Low & Co.; Sampkin, Marshall & Co.; Henry Frowd, (Clarendon Press) and Dulau & Co., all of London. Truebner's Catalogue of Dictionaries and Grammars in all languages, is a very useful trade tool.

For *Medical Works*: Clarke & Co. Cincinnati; Lippincott & Co., Philadelphia; Vail & Co.; Steiger & Co.; Westermann & Co., of New York and some of the

larger Medical Publishers issue good retail Catalogues. Wolf's Medical Vademecum and Billing's Grand Index to the National Medical Library at Washington and the Index Medicus, New York, are important.

For *Engineering, Mechanics and Technology*: see the Patent Office Library Catalogue; Catalogue of Modern Works on Science and Technology, issued by Chapman & Hall, London; Gerold's (Vienna) Catalogue of English, German and French Works on Technology, embracing the publications of 1865 to 1882. The Special Lists by R. Clarke & Co., Cincinnati; D. Williams & Co., New York, and Little, Brown & Co., Boston.

For *Law*: C. C. Soule's Lawyer's Reference book for Law Books and the Index to the Library of Congress. R. Clarke & Co., Cincinnati; W. Gould & Sons, Albany; Callaghan & Co., Chicago, and the Retail Lists of other large Law firms.

**List of Practical Bibliographies, Trade Catalogues, Retail and Special Lists,  
Literary and Trade Journals, Advertising Mediums, etc., all pertaining  
to the Foreign and American New and Antiquarian Booktrade.**

## ADDENDA.

---

*The subscribers of this Directory are respectfully requested to report to the Publisher any omissions or errors in regard to addresses or specialties which they may discover. It is contemplated to have, at some future time, these additions and corrections printed on a separate sheet, of which a copy will be furnished free of charge to every purchaser of the Directory. A co-operation of the trade in revising and correcting the Directory will naturally increase its value and render it more serviceable to every owner.*

# BOOKS WANTED!

Every dealer should look over his stock each week with the

## PUBLISHERS' WEEKLY

list of "Books Wanted", sometimes reaching several hundred titles, in his hand. Each subscriber is entitled to five lines each week, free of charge.

The AMERICAN CATALOGUES are needed by all who do a live business in dead books. The volume of 1876 to 1884, just ready, 4to, 742 pages, costs \$12.50 in paper parts, \$15.00 half-morocco. It soon pays for itself in the sales to which it helps. The edition is limited.

The original AMERICAN CATALOGUE of 1876, 4to, 2 vols, over 1200 pages, is within thirty copies of being out of print. The price is already raised from \$25.00 to \$40.00 paper; \$44.00 2 vols. half-morocco. This is needed by dealers, and is also a good investment as a book.

## THE PUBLISHERS' WEEKLY.

THE PUBLISHERS' WEEKLY, established in 1872, with which was incorporated the AMERICAN LITERARY GAZETTE AND PUBLISHERS' CIRCULAR (established in 1852), by purchase from Mr. George W. Childs, is recognized as the independent representative of the publishing and bookselling interests in the United States.

The central feature of the paper, that makes it an indispensable aid to the trade, to libraries, and to literary people, is its BIBLIOGRAPHICAL DEPARTMENT. Every possible facility of reference is afforded by a combination of methods which records the books, by the week, the month, the season, and the year, under the author, the publisher, the title, the subject, and the class. It is acknowledged that no other journal, at home or abroad, supplies as practical and satisfactory a record of the publications of its country.

The bibliographical department includes:

1. A "WEEKLY RECORD" of all new American publications and reprints, giving their full titles (according to the rules of the American Library Association), with place and date of publication, publisher's name, size, number of pages, and price; and also descriptive notes of books received. This first and practically the official record is arranged *alphabetically by the authors or titles*, and for ready reference is placed in the same accessible position in each number.

2. A weekly "ORDER LIST", being brief-title entries, with prices, of the "Weekly Record," arranged *alphabetically by the publishers*. The object of this list is to present at a glance the simultaneous issues of certain publishers, and to save time in the making up of orders.

3. A monthly "INDEX TO THE WEEKLY RECORD," being short-title entries, with the publisher's name and the size and price, arranged *alphabetically by the authors, with references from the titles or catchwords, and from the subjects*. With each entry is given also the number of the "Weekly Record" containing the full-title entry and note.

4. A monthly "CLASS SYNOPSIS," grouping the works of the month under such heads as Biography, Description, Education, Fiction, Fine Arts, History, Law, Literature, Medical Science, Physical and Mathematical Sciences, Poetry and the Drama, Political and Social Science, Theology and Religion, etc.

5. A semi-annual classified list of *Forthcoming Publications*, given in the Spring and Fall Announcement numbers, in which also the announced books are more fully described under the name of the publishers, arranged alphabetically.

6. An annual *Index* to the books of a year, advertised by the more prominent publishers in the so-called Annual Summary Number, which generally is published in the last week of January. In this number is also given a classified summary of the more prominent publications of the year.

7. Regular *List of the Season*, published as follows: A complete priced catalogue of Educational Books, in July; a priced list of the Holiday Books and prominent Juvenile Books of the year, in November; a supplementary list of new Educational Books, February; a list of Guide and Summer Books in May.

8. Quarterly lists of the Publications of the *U. S. Government*.

9. Semi-monthly lists of the more prominent *New English Books*.

10. Special *Bibliographies*. The timely bibliography, now in course of publication, is "*Literary Property*"; a catalogue of books and authors relating to literary property (copyright, international copyright and kindred subjects), by Thorvald Solberg.

The *Literary Department* includes comprehensive intelligence as to books forthcoming and publishing movements, at home and abroad, gathered with the aid of representatives in other cities; editorial discussions on book and trade subjects, as copyright, postal questions, book production and manufacture, etc.; original contributions and representative extracts on like topics; topical "cues" or references to bibliographical sources or courses of reading and study; journalistic notes; business notes, literary and trade notes, etc. \$3.20 per year, 10 cents per number.

# THE AMERICAN BOOKSELLER.

Published 1st and 15th of each Month. Subscription \$2.00 per Annum.

THE AMERICAN BOOKSELLER is now in its seventeenth year, the first number having been issued in 1868. It is the OLDEST AND LARGEST OF THE JOURNALS DEVOTED to the Book and Stationery Trades, and has by far the widest circulation in this country. It reaches not only the members of the book and stationery trades, but also a large number of teachers, librarians, and literary institutions throughout the world.

It aims to bring into close connection the producers and purchasers of books, and, by giving regular and accurate accounts of all matters of interest, to serve as a guide to the literature of the day.

*Each Number Contains a Reliable List of NEW PUBLICATIONS, including ADDITIONS TO THE LIBRARIES and NEW MUSIC, and ANNOUNCEMENTS OF FORTHCOMING WORKS.*

Under the caption of CONTRIBUTIONS TO TRADE HISTORY each issue of THE AMERICAN BOOKSELLER contains a history of a noted firm, together with portraits; special numbers are given to the Spring and Fall Announcements; the issue of July 15th, each year, contains a COMPLETE LIST OF ALL EDUCATIONAL PUBLICATIONS, while the CHRISTMAS NUMBER, devoted to Holiday Books, is a remarkable exhibition of the progress of wood-cutting, comprising as it does the best specimens of the art of the engraver and printer which appear in the chief illustrated books during the year.

The literary department contains editorials on trade and literary topics, and LITERARY NOTES AND NEWS. A valuable series of correspondence from BOSTON, PHILADELPHIA, and LONDON gives succinct accounts of the literary movements and trade activity at those centers.

Our STATIONERY DEPARTMENT gives notes and news, and all information useful to the dealer.

SUBSCRIPTION, \$2.00 PER ANNUM.

*To be had through all News Companies and Agents. Sample copies free on application.*
